

ENIGMA

ESP-6200F Wireless Guard Tour System

Features:

- Auto-induction, no need to press any button
- RFID inductive reading, workable for 125khz EM RFID tags
- Super waterproof and impact resistance with flexible rubber coating
- Contactless data downloading , without USB communication port on device body
- 3V non-rechargeable battery, can be used continuously for 1 year
- LED + beeps operation prompt
- Super low power consumption

Specification	
Read tags type	125kHz EM tags
Storage capacity	8,000 logs patrol data
Card reading time	< 0.2s
Reading distance	< 3cm
Communication baud rate	57600 Bps
Data download	Data downloader (ESP-6200TC)
Operation temperature	-20°C to 70°C
Size	142mm*32mm*40mm
Operation power consumption	8mA
Standby power consumption	100UA
Structure	Aluminium alloy + rubber coating
Net weight	150g
Advantage	Wireless data downloader and low power consumption
Battery	1350mAh CR123A lithium battery, non-rechargeable
